

PRO(F)LITERACY 2.0 NEWSLETTER #3

AUGUST 2024

► SUCCESSFUL IMPLEMENTATION OF THE 2ND TPM (WS2)

From May 16th to 18th, 2024, in Bari, Italy, the partners held the second meeting which aimed at advancing collaboration within the consortium and ensuring project quality. These sessions focus on defining the next steps, monitoring and evaluating progress, developing materials and content, and fostering sustainable international networks in literacy. Specifically, the sessions aim to evaluate the project's progress to date, identify areas for improvement, analyze results, and develop the primary tangible outcomes. Additionally, they prepare content for local sessions and lay the groundwork for the upcoming youth exchange mobility, emphasizing reflection, cooperation, and impactful implementation.

Co-funded by
the European Union

► SUCCESSFUL IMPLEMENTATION OF THE YOUTH EXCHANGE

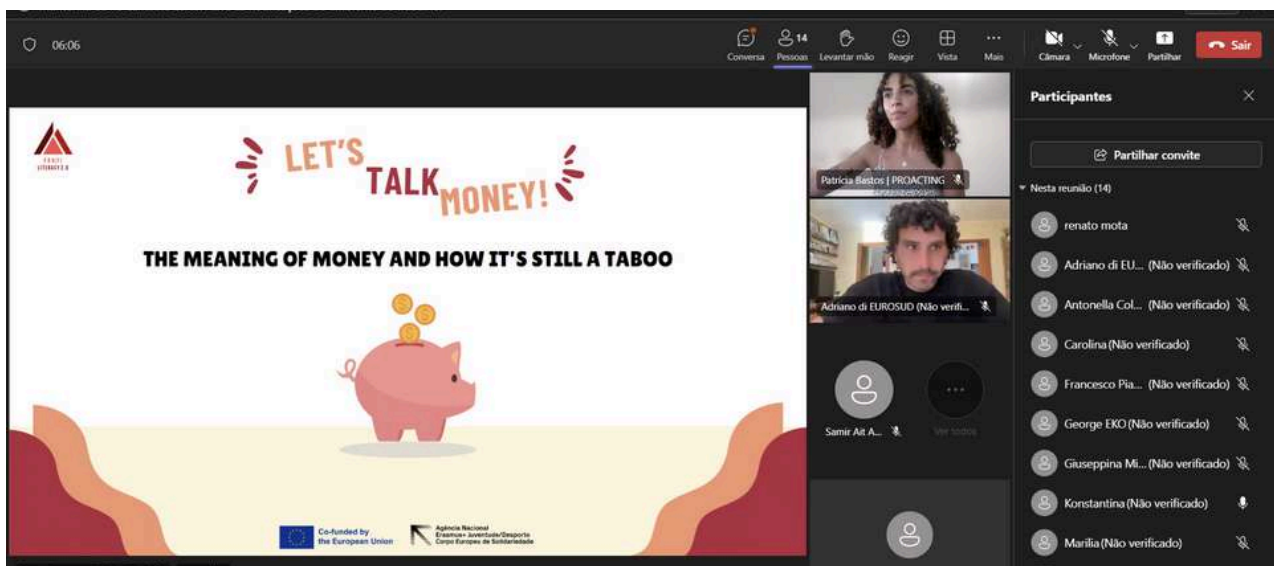

From June 12th to 18th, 2024, the PRO(F)LITERACY “Youth Exchange” was successfully held in Porto, Portugal, bringing together 35 participants, including young people and youth workers, with 7 representatives from each partner organization (Estonia, Greece, Italy, Latvia and Portugal).

This dynamic mobility, as part of the KA2 project’s implementation, engaged participants in exploring PRO(F)LITERACY 2.0 philosophy, emphasizing the development of financial literacy and key competencies in an international setting. The program fostered intercultural collaboration, highlighted outcomes from local sessions, and encouraged the application of newly acquired knowledge and skills on a global scale.

Participants also developed competencies aligned with the European framework of 8 key competencies for lifelong learning, while gaining increased confidence and readiness to engage in future mobility initiatives. Last but not least, they enhanced **EntreComp**'s skills and competencies for entrepreneurial and financial literacy growth.

► SUCCESSFUL IMPLEMENTATION OF MORE VIRTUAL MOBILITIES

During this 4-month period, PRO(F)LITERACY partners held the third (**The Meaning of Money and How It is Still a Taboo**), fourth (**Financial Profiles**), and fifth (**New Tools on How to Approach the Financial Topic with Young People**) virtual mobility, led by PROACTING, the Portuguese partner. During the sessions, participants explored the historical evolution of money and engaged in discussions about its personal and societal significance. The session provided a space for participants to reflect on the concept of money, its cultural and psychological implications, and the enduring taboos surrounding it. Additionally, the discussion delved into how cultural norms and psychological factors shape our attitudes and mindsets toward money, fostering a deeper understanding of this complex topic.

WHY IS MONEY STILL A TABOO?

Cultural aspect

Our cultural background, family values, experiences, and emotions lie behind our perceptions of money, which may often be unconsciously held.

- Cultural Norms
- Social Status
- Values and Beliefs

Psychological aspect

Money is multifaceted, with positive associations such as security, freedom, love, self-worth and happiness, as well as negative connotations such as fear, control, guilt, dependency and envy.

- Self-Worth and Identity
- Shame and Guilt
- Cognitive Dissonance

▶ ONGOING IMPLEMENTATION OF LOCAL WORKSHOPS SERIES

The implementation of local workshops under the PRO(F)LITERACY 2.0 project continues to progress successfully. These workshops are designed to address key themes of the project, fostering community engagement and enhancing participants' knowledge and skills. Through interactive activities and collaborative discussions, the workshops aim to empower individuals, promote financial literacy, and strengthen the impact of the project at the local level. Stay tuned for updates as the workshops advance and contribute to achieving the project's overarching goals.
