

EKO GREECE

EMPOWERING YOUTH
BUILDING A BETTER FUTURE

Invitation to potential partners

We invite you to join EKO in the design & implementation of European Projects

Youth Empowerment • Inclusion • Sustainability • European Cooperation

Developing a European cooperation project is an exciting but demanding process. From long project timelines and multi-partner coordination to impact, sustainability, and accountability, successful collaboration depends on choosing partners who are experienced, reliable, and share common values. Long-lasting projects, coupled with limited resources, require mutual trust and clarity in cooperation.

EKO is your well-established youth organisation - partner in Greece with proven experience in the design & implementation of European projects and initiatives. Active at both local and international levels, EKO brings solid project management capacity, strong youth-work expertise, and a commitment to quality and meaningful impact. At local and national level, EKO collaborates with:

- Municipalities and public bodies
- Universities and academic institutions
- Civil society organisations working with vulnerable youth

EKO's experience is the outcome of accumulated work in:

- Project design, implementation and coordination
- Quality assurance and reporting
- Dissemination and sustainability planning
- Planning & use of non-formal education methodologies with an emphasis on digital tools & skills
- Youth empowerment initiatives with focus on vulnerable groups
- Intercultural dialogue combating xenophobia, prejudice, and discrimination
- Commitment to Sustainability, to the SDGs and to the EYGs
- Active partnership in multiple networks which enhance dissemination, outreach, and cross-cultural cooperation.

Joining EKO guarantees a successful and impactful collaboration with an experienced, value-driven, and youth-focused organisation that delivers high-quality results while fostering inclusion, sustainability, and meaningful European cooperation.
